Welcome

To the **23rd International Conference for Medical Laser Applications** presented by the International Society for Medical Laser Applications (ISLA)

Dear colleagues,

I am pleased to invite you to the 23rd International Conference for Medical Laser Applications.

This conference aims at bringing together physicians of various specialties sharing a common interest in advancing Laser Therapy for the patients' benefit.

Laser Therapy has made tremendous progress over the last 15 years and is widely used by many practitioners around the world. At this year's congress our 14 speakers would like to introduce you to the latest developments. Follow the History of Medical Laser Therapy: From Topical to Intravenous and Interstitial Applications.

This meeting is an excellent chance to get into contact with experts in the field and to meet old and hopefully new collaborators and friends.

I look forward to welcoming you in San Diego!

Best regards,

Michael H. Weber, M.D. and ISLA President
